

SPCU TREASURERS REPORT 2020

As you can see there was not too much activity as expected during the season.

The main points are that we received our grant from CS this year which was not received in the previous financial year and enabled honoraria to be paid.

The ball sales covered the purchase of the balls for which I do not expect there to be many more orders for this season but if you do need more balls please complete the order.

There was a payment for umpires, which was a shortfall for last season. A reminder that clubs will be invoiced by the umpires association for umpire fees prior to the season starting and again during the season for the remaining games.

Hopefully there will be more activity this year.

Denis Christie

Treasurer
